

Figure 2-1: Spending by Investment Type

Spending by Mode

Highways remain the primary mode of travel in Rhode Island. Highway projects receive the greatest share of STIP resources, with the focus on state of good repair and system preservation. Figure 2-2 Spending by Mode depicts spending by transportation mode. Projects included in this section may have multiple modes integrated into the same project. For the purpose of this analysis, the primary mode was used as the factor in determining which mode a project most accurately represents.
